C. General Meeting Agenda

There was little discussion of the proposed agenda time frame by Rich. It appears all agree to use it a flexible guideline to plan and carry out the meetings.

D. Any other business

- Hinges and Tongs is complete. Florence volunteered to proof read for Fred and she has done so. A digital copy has been sent to Tom for posting on the website and sending to members with email. Fred will be printing and mailing hard copies to others before the end of the month.
- We discussed the extra frames. All agreed that we like have 50 units (100 frames) that are an asset we will never use. They could be sold. Some discussion about their value between \$150 and \$250/unit, but all agreed we should look into possible sale. Tom plans to follow up with Canadian group stewarding a show in London, Ont. In 2015 that had inquired earlier.
- Can we lower liability insurance rate? Are our frames and other material in either the library or storage on Merchants Ave. insured. Dave will check on both.
- Agreed a club printer was not needed. Those needing to print for club would do so and club would reimburse. We did see need for club computer to be available at meetings for presentation, etc. May look into purchasing used from a member upgrading.
- We discussed the value and nature of possible presentation awards we might give to presenters. Possibly vouchers for auction purchase of club entries?
- Dave will bring tax exempt forms to next meeting for folks purchasing for the club.
- The minutes from the last meeting were accepted. Tom can post to website.

Meeting was adjourned shortly after 9:00 PM.
