6. Rise of Steam Travel

- 6.1 Early Attempts
- 6.2 Steam Travel
 - 6.2.1 Steam Travel on Rivers
 - 6.2.2 Steam Travel on the Ocean
- 6.3 Dual Power Combination

7. Clipper Ships

8. Conclusion

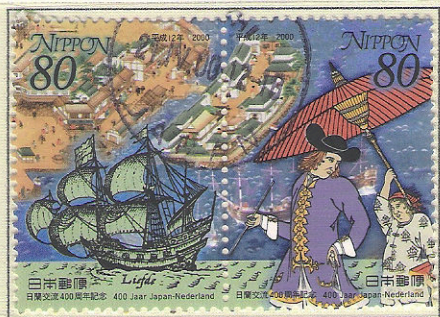

During the middle ages, the Americas were unknown continents.

At this time, Europeans had many different beliefs about the earth's shape.

The sailors of this time were trying to find an easy way to reach the lands of the east so that they could get the spices from there.

Europeans were willing to sail out into the unknown.

Se-tenant pair

Instead they found large continents that were previously undiscovered.
