This award is for the best exhibit of British North America material, including Canada and British Colonies in North America, winning a national silver medal or above. Any number of frames qualify. We prefer a minimum of two qualifying exhibits but will issue the award for just one qualifying exhibit to encourage BNA exhibiting.

The award consists of a ribbon and a plaque. The ribbon is to be placed on the first frame of the winning exhibit and the plaque is to be presented at the show's awards presentation.

Please order this award several weeks in advance to ensure its delivery by show time.
